Letter of Intent

December 8th, 2009

Mr. Ivan Henderson
Assistant Director of Public Utilities
Commissioner of Cleveland Public Power
1300 Lakeside Avenue
Cleveland, Ohio 44114

Dear Mr. Henderson:
Kinsei Sangyo expresses our sincere gratitude for the opportunity to participate in the MSWE Project of City of Cleveland.

Please be advised that Princeton Environmental Group, INC. New York is the exclusive licensee of this company in the United States of America and all the contracted GB gasification systems designs, engineering and equipment manufacturing for your MSWE Project will be provided by Kinsei Sangyo. We at Kinsei Sangyo will provide through Princeton, required design and equipment guarantee based on waste type, material composition and equipment specifications requirements specified by the City of Cleveland.

We further warrant that our system design will be in compliance with Ohio EPA air emission standards required for the successful obtaining of air permits Said standards are to be provided by Ohio based environmental engineers responsible for such permit applications.

It is understood that City of Cleveland is seeking this office to establish our U.S. head office in your good City and we confirm our intention and our commitment to do so jointly with Princeton Environmental Group in accordance to the stated plans and schedules as listed in the attached Exhibit A (Exhibit A is the mutually agreed Q & A).

Masamoto Kaneko
Managing Director
Kinsei Sangyo Company
