Presentations/Conferences attended by Team

April 7, 2010

Meeting with Ohio EPA

Meeting to discuss City of Cleveland's MSWE Project

May 11-13th, 2010

North American Waste to Energy Conference in Orlando, FL

The MSWE Development Team attended this conference in which sessions discussed topics such as "High Efficiency Waste-to-Energy Power Plants: Combining Municipal Solid Waste and Natural Gas or Ethanol", "Measuring the Sustainable Return on Investment Costs and Benefits of Waste-to-Energy", "Integrated Recycling Strategy at Waste-to-Energy Facilities" to name a few. There was also a Legislative Update session that discussed the most recent federal legislative developments and its effects waste-to-energy. The final day of the conference offered the opportunity to tour the Lake County Resource Recovery Facility located in Okahumpka, Florida, which began operation in March of 1991 and processes a total of 528 tons per day of solid waste while generating up to 14.5 megawatts renewable energy that is sold to a Florida Power Corporation.

June 25, 2010

Northeast Ohio Agribusiness Forum "A Vision for Biomass Economy

David Karspinski , VP Nortech – Speaker

August 16th, 2010

Forum discussed the potential biomass holds as a feedstock and how it could alleviate our dependence on petroleum as a fuel source

June 28, 2010

Innovation Starts Here: Opportunities for Ohio Businesses in a Clean Energy Economy" forum

Forum discussed how the clean energy economy will affect Ohio and emerging clean energy businesses.

Collinwood Iron and Metal Recycling

Joe Frato (216-215-5700 or 216-481-5600)

The MSWE team composed of Jose Hernandez, Debra Mitchell, Lissett Capeles and Aliea McBooth met with Mr. Frato on Monday, August 16th, 2010. The meeting took place at their eastside Lot. This is a new lot which presently is not housing any debris.

July 19th, 2010

ODOD Grant Bidders Meeting

Grant Bidders meeting for the "Deploying Renewable Energy: Transforming Waste to Value" grant program

January 19, 2010

Advanced Energy Industry Cluster Roadmapping Workshop: Biomass /Waste to Energy

This workshop featured industry experts who provided information on technologies and emerging global markets in the Biomass sector, technologies and emerging global markets in the Waste-to-Energy sector, and the policies and regulations that will drive and shape growth in both sectors.
